

Wide Selection of Switches

There are literally thousands of different combinations of switches you can configure with Nason.

To the left are some of the more popular models. To get the exact switch you'll need, ask for a Nason catalog, or ask us to walk you through it. We can take the thread size, temperature/pressure range, circuit and other information and help you determine the switch for your application.

7 reasons you'll like working with us

7. We'll stock what you want. Regularly need a part you can't find anywhere? Let us know, and we'll put it on our shelves.
6. We have what you want. With the largest stock of heavy duty gauges, switches and air conditioning in the country, we have what you need.
5. We know what you want. We've been doing this since 1949. Our customer service average 14 years experience.
4. We ship what you want. We have a 99.975% shipping accuracy rate.
3. Order tonight, get it tomorrow. Order by 5 pm (Eastern) and we'll ship it the same day.
2. For a flat fee of \$15 we'll ship it FedEx Overnight (up to 5 pounds.)
1. Our packing peanuts are 98% fat free.

7 reasons you'll hate working with us

7. The Catalog Design Guy is kind of a jerk. You won't have to actually deal with him, but when you buy from us you are sort of supporting his attitude.
5. He also doesn't count very well.
4. We sometimes use too much tape in our packaging.
3. Our amazing efficiency, expertise, selection and overall awesomeness could make you judge your other suppliers more harshly.
2. We're excessively humble.
1. Our packing peanuts contain 2% fat.

More than the sum of our parts.
