

Air Conditioning Hose built to order!

Get the hose you want built the way you want it!

Cruise Controls

Install a few cruise controls but want to do more? Buy 10 cruise units from us at volume pricing and stock a few of the popular handles. Then call later for any other handles you need. The handles are small and don't cost much to ship overnight.

Turbochargers and Exhaust Systems

Banks systems set the standard in quality for enhancing engine performance. Because Banks designs exhaust systems to maximize throughput, you can actually boost horsepower without hurting your mileage!

Wika Liquid Filled Gauges

- Commercial gauges
 - Gauge/seal assemblies
 - Industrial gauges
 - Test gauges
 - Process gauges
 - Differential pressure gauges
 - Custom OEM designs
- Ask an ISS representative for help in selecting the right Wika gauge for your application.

Adjustable Backup Alarm

Manually adjustable alarms have two or three settings you set with a built-in switch. Automatically adjustable alarms detect noise level in an area and adjust volume accordingly.

Tail-Gator Backup Alarm

T#LDA50 12V DC 97dB

200 Series Backup Alarm

- #230 12V DC 97 dB
- #240 12/24V DC 97dB
- #250 12/24V DC 102 dB

Can't find your part?

This catalog only shows about 5% of the parts we carry. Give us a call, because we probably have it! And if not, we can get it.

#1911BI	1/4"-28 taper	6

Triangle Flare Kit

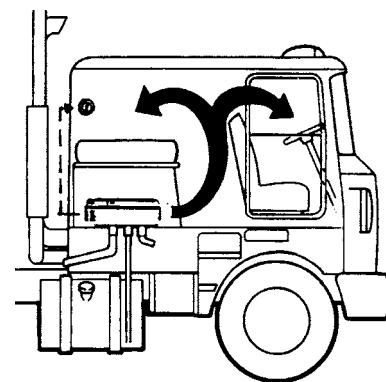

#798 Pack of 3 orange triangle markers for alerting other drivers of road hazards.

Mmmm.... corporate expansion.

In 1990, ISS was bought by the current ownership, the Kelly family. Since then the business has consistently doubled in size about every six years. We attribute our success to hard work, a commitment to quality, and Donut Fridays.

1990

Heat without engine idle

Using an engine to heat compartments can cost more than \$1,000/year in added fuel, maintenance, and engine idling. We have the Webasto system you need to heat your compartment without idling the engine. Webasto heaters run off a line directly from the fuel tank, with applications in gas, diesel and propane. Call us to find out about installing them in truck cabs, buses, and truck cargo areas. Discounts available for entire fleet conversions.

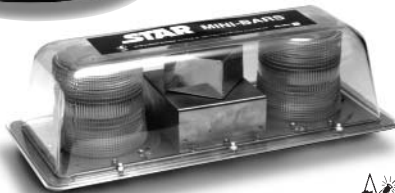

Rotating Light

- #81264-04 Green
- #81264-05 Red
- #81264-06 Brown
- #81264-07 Yellow
- #81264-08 Orange

Low Profile Rooftop AC Unit

The Red Dot R9777 features a much slimmer profile, a sleek, modern appearance, and weighs only 65lbs.

Can't find your part?

This catalog only shows about 5% of the parts we carry. Give us a call, because we probably have it! And if we don't we can get it.

New Colors

Marine EV Gauges: white dial, daylight gray/night blue numerals, blue pointer, chromed brass bezel.

Bulb covers give you your choice of blue, orange or green lighting for the Automotive gauges.

Call ISS for more info!

Heavy-Duty Grease Gun

#525 Develops pressure up to 4,500 psi. Automatic variable stroke/pressure. Positive lever stop. Loader fitting incl. Deluxe packaging.

Economy Grease Gun

#F101 Develops pressure up to 10,000 psi. Automatic variable stroke/pressure. Positive lever stop. Loader fitting incl. Poly bag packaging.

Phototach

#R1620C This phototach instantly measures the RPM of an engine. Place a piece of reflective tape (incl.) or chalk mark on the crank pulley. Aim the phototach at it and you can set idle speed while watching the RPM reading. Also use it to see if the truck's factory tachometer is accurate. It requires no wiring and is easy to use (it has only two-buttons). It's battery-operated (four AA incl.) and has a digital display.

In 2034, ISS will create the first hourmeter with artificial intelligence. Within two years these devices will have made plans to overthrow our government, level our cities, and turn the civilized world into a barren hell-scape where only rag-tag bands of humans survive by eating their young. Fortunately, we never give them any arms or legs so the hourmeters never really go beyond the planning stage.

2034

Street Rod Gauge Kits

Whether you need a kit for a customer or your own personal project, come to us for the best deal and selection around on rod kits. We're one of the largest distributors of gauges in North America, so you know you're going to get what you want at ISS.

VDO

Choose from a variety of styles designed to compliment the 50's and 60's rod. All-American style meets German attention to detail!

The Street Rod Series offers a variety of styles from nostalgic to modern. Features like a domed lens and antique pointer will make your dash stand out.

The popular Wings Series features classic styling of the 40's and 50's combined with the quality and reliability of modern Stewart Warner instruments.

Adjustable Temp Switch

Part #HTC1C200R/ADJ 1/2" Thread
 #HTC2C200R/ADJ 3/8" Thread
 Stock fewer switches with this all-in-one beauty. Adjust it to trip from 160° to 240°F, and you can use it as a Normally Open or Normally Closed switch. One switch can cover dozens of settings.

Stumped On a Switch?

The beauty of Nason is that they offer an enormous range of vacuum, temperature and pressure switches. Give us a call and we'll easily walk you through the hundreds of options to get exactly what you need.
